

Dear Danny:

I would like to thank you, The Kids at Our House, and P. Chan & Edward for your generous donation of books to our Champions Week program and for helping to make it a success. We had approximately 30 kids involved in the program. There were seven older kids involved in the Champions Project curriculum that taught about goal-setting, time management, and conflict resolution. The younger kids were given character training on truthfulness, obedience, generosity, gratefulness, and forgiveness. In addition to all the "work," we did some arts and crafts, reading, and recreation in the gym. Most importantly, we formed relationships with both the kids and parents that we hope to continue to nurture as we transform the city of New Brunswick. We hope to continue offering Champions Week as a summer program and hope to facilitate the Champions Project throughout the year in a classroom setting.

The smiles on these kids faces were due in part to your donation! Thanks again!

Sincerely,

Kurt S. Yanagimachi
Director, Corporate Relations, Harvest Transformations
